

SWING JIB

- Easy load placement directly from the cab.
- Especially interesting to place loads in narrow spaces.
- Improves efficiency-less time wasted placing the machine.
- Placement through rotation, not side shift = load moves backward when the jib swings.

- Single-hook jib fitted with a 15°/15° rotation.
- Hydraulic rotation for more accuracy.
- Simple & strong attachment.
- Homologated, rotating self locking hook.
