Technical sheet:

CONCRETE MIXING BUCKET (COMPACT MACHINES)

Technical characteristics

- Hydraulic side discharge bucket that ensures an easy and safe unloading for the operator.
- Bolted helix made of wear steel HB400 for a consistent mix from one side to the other.
- Equipped with an unloading pipe that the operator connects at the side of the bucket for even more safety and precision.
- Featured with a galvanized rounded protection grid with bag splitter.

[The 3D picture at the top of this page is the reference BMC 1495 / 250 SK - 52832877]

Customer benefits

- Designed to load, mix, transport and unload concrete quickly and easily.
- Ideal attachment for industries requiring small quantities of concrete on a daily basis
- Profitability: the operator mixes just enough concrete for what he needs.
- Safety: the operator can easily work along a wall or a sidewalk and his presence is not required underneath the bucket.
