Technical sheet:

FORESTRY AND STONE MULCHER

Customer benefits

- Versatility: forestry mulcher capable of crushing stones.
 - Land clearing and soil preparation.
 - Shredding heavy vegetation / overgrowth.
 - Forest road creation & maintenance.

- Performance:

- Adjustable hood to facilitate mulching capacity in thick vegetation in the open position and to refine the mulching and limit forward projections in the closed position.
- $\mbox{-}$ Adjustable brush guard to guide and facilitate the penetration of vegetation into the mulcher.
- Equipped with inner cover knives, increasing productivity.
- Security: Protection chains at the rear to limit projections.
- Maintenance: Easy and quick teeth replacement.

Technical characteristics

- 60 cm3 variable displacement hydraulic piston motor.
- Transmission via 4 XPB V-belts.
- Working pressure control gauge. It indicates if the rotor is blocked (P=210 bars) and to regulate its forward speed if necessary.
- Anti-wear steel shredding chamber with 3 rows of inner cover knives
- Rotor equipped with quick attach fixed hammers.
- Hydraulic block with pressure relief valve and 12V diverter valve.
- Adjustable skids.
- Hydraulically adjustable hood with 2 rows of inner cover knives.
- Manual adjustment of the brush guard (4 positions).
