Technical sheet :

## GRADER BLADE WITH SIDE SHIFT

## **Customer benefits**

- Dedicated to moving and grading surfaces (such as dirt, gravel, sand and any other material) with precision.

- Designed to be used by asphalt, landscaping, and concrete flatwork contractors.

- Ideal for grading roads, parkings lots, sports facilities, and squares.

## **Technical characteristics**

- 3 hydraulic functions to allow great precision on a job site: rotation right/left, side shift, horizontal tilting.

- All movements are proportional for greatest precision.

- Robust design with central shock absorber to resist to the stress received during the leveling work and to maintain good forward speed.

- Front wheels are completely free and pivoting 360° to provide additional stability.

- Can be combined with all laser systems of any brand, both 2D and 3D for more precision.

- The grader blades are already set up to accommodate the two poles for the receivers.
