

Technical sheet :

# TMT 25I Y ST5

---

| Technical characteristics |   | Metric    |                                      |
|---------------------------|---|-----------|--------------------------------------|
| 1.1                       | Manufacturer  |           | MANITOU                              |
| 1.2                       | Model Name  |           | TMT 251 Y ST5                        |
| 1.2.1                     | Reach out equipment   |           | Telescopic boom                      |
| 1.3                       | Power source  |           | Diesel                               |
| 1.4                       | Operator type   |           | Seated                               |
| 1.5                       | Max. capacity   | Q         | 2500 kg                              |
| 1.6                       | Load center of gravity  | c         | 600 mm                               |
| 1.8                       | Load distance, centre of drive axle to fork                     | x         | -505 mm                              |
| 1.9                       | Wheelbase   | y         | 1784 mm                              |
| <b>Weight</b>             |   |           |                                      |
| 2.1                       | Service weight  |           | 2320 kg                              |
| <b>Wheels</b>             |   |           |                                      |
| 3.1                       | Tires type  |           | Pneumatic                            |
| 3.2                       | Dimensions of front wheels                                      |           | 18x7-8                               |
| 3.3                       | Dimensions of rear wheels                                       |           | 10x16,5                              |
| 3.5                       | Number of front wheels / rear wheels                            |           | 2 / 1                                |
| 3.5.2                     | Drive wheels (front / rear)                                     |           | 2 / 1                                |
| 3.6                       | Front wheel gauge   | b10       | 2102 mm                              |
| <b>Dimensions</b>         |   |           |                                      |
| 4.1                       | Mast/fork carriage tilt, forward                                | $\alpha$  | 100 °                                |
| 4.1.1                     | Mast/fork carriage tilt, backward                               | $\beta$   | 12 °                                 |
| 4.2                       | Height telescopic boom lowered                                  | h1        | 2240 mm                              |
| 4.3                       | Mast free lift  | h2        | 1440 mm                              |
| 4.4                       | Max. lifting height   | h3        | 3380 mm                              |
| 4.5                       | Height telescopic boom extended                                 | h4        | 3925 mm                              |
| 4.7                       | Height of overhead guard (cabin)                                | h6        | 2200 mm                              |
| 4.8                       | Seat height/stand height  | h7        | 1220 mm                              |
| 4.19                      | Overall length  | l1        | 2790 mm                              |
| 4.20                      | Length to face of forks   | l2        | 1590 mm                              |
| 4.21                      | Overall width   | b1        | 2266 mm                              |
| 4.22                      | Forks section / width / length                                  | s / e / l | 40 mm x 125 mm x 1200 mm             |
| 4.23                      | Fork carriage ISO 2328 (class/form) A/B                         |           | FEM 2A                               |
| 4.24                      | Fork carriage width   | b3        | 1270 mm                              |
| 4.26                      | Distance between support arms                                   | b5        | 1267 mm                              |
| 4.26                      | Distance between wheel arms/loading surfaces                    | b4        | 1634 mm                              |
| 4.28                      | Maximum horizontal extension at COG 600                         | l4        | 1310 mm                              |
| 4.32                      | Ground clearance at centre of wheelbase                         | m2        | 278 mm                               |
| 4.33                      | Aisle Width for pallets 1000 x 1200 crossways                   | Ast       | 3970 mm                              |
| 4.34                      | Aisle width for 800 x 1200 pallet lengthways                    | Ast       | 3970 mm                              |
| 4.35                      | Turning radius  | Wa        | 3011 mm                              |
| <b>Performances</b>       |   |           |                                      |
| 5.2                       | Lifting speed (laden / unladen)                                 |           | 0.25 m/s / 0.27 m/s                  |
| 5.3                       | Lowering speed (laden / unladen)                                |           | 0.29 m/s / 0.32 m/s                  |
| 5.10                      | Service brake   |           | Hydraulic brakes by loss of pressure |
| <b>Engine</b>             |   |           |                                      |
| 7.1                       | Engine brand / norm / model                                     |           | Yanmar - Stage V / 3TNV 86 CT        |
| 7.2                       | Engine power (Hp / kW)  |           | 42 Hp / 31 kW                        |
| 7.3                       | Rated speed   |           | 2800 rpm                             |
| 7.4                       | Number of cylinders / Capacity of cylinders                     |           | 3 - 1568 cm³                         |
| <b>Miscellaneous</b>      |   |           |                                      |
| 8.1                       | Type of drive control   |           | Mechanical                           |
| 8.2                       | Working hydraulic pressure for attachments                      |           | 270 bar                              |
| 8.3                       | Oil flow rate for attachments                                   |           | 44 l/min                             |
| 8.4                       | Measured/guaranteed mean noise level at the ear of the operator |           | 104 dB                               |
