# MAN'GO 12

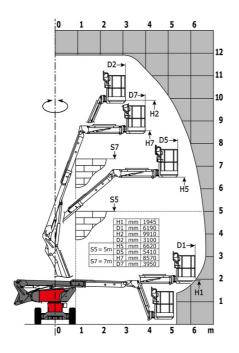

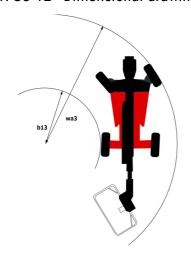

|   | MAN'GO 12 Created on May 31, 2025 at 8:35 | PMUIC |
|---|---|-------|
| Capacities  | Metric                                    |       |
| Working height                                    | h21 11.91 m                               |       |
| Platform height                                   | h7 9.90 m                                 |       |
| Maximum outreach                                  | 6.19 m                                    |       |
| Overhang  | 4.80 m                                    |       |
| Pendular arm rotation (top / bottom)              | +64 ° / -70 °                             |       |
| Platform capacity                                 | Q 230 kg                                  |       |
| Turret rotation                                   | 350 °                                     |       |
| Platform rotation (right / left)                  | 70°/66°                                   |       |
| Number of people (indoor / outdoor)               | 2/2                                       |       |
| Weight and dimensions                             |   |       |
| Platform weight*                                  | 4150 kg                                   |       |
| Platform dimensions (length x width)              | lp / ep 1.50 m x 0.98 m                   |       |
| Floor height (access)                             | h20 0.39 m                                |       |
| Overall length                                    | l1 5.50 m                                 |       |
| Overall width                                     | b1 1.80 m                                 |       |
| Overall height                                    | h17 2.02 m                                |       |
| Overall length (stowed)                           | 19 4.50 m                                 |       |
| Overall height (stowed)                           | h18 *** 2.49 m                            |       |
| Jib length  | l13 1.46 m                                |       |
| Counterweight offset (turret at 90°)              | a7 0.19 m                                 |       |
| Internal turning radius / External turning radius | Wa3 1.71 m/4.11 m                         |       |
| Ground clearance at centre of wheelbase           | m2 0.32 m                                 |       |
| Wheelbase   | y 2 m                                     |       |
| Performances                                      |   |       |
| Drive speed - stowed                              | 5.20 km/h                                 |       |
| Drive speed - raised                              | 1 km/h                                    |       |
| Gradeability                                      | 45 %                                      |       |
| Permissible leveling                              | 4 °                                       |       |
| Wheels  |   |       |
| Tires type  | Solid Tires Cured-On                      |       |
| Standard tires                                    | 720 x 240 mm                              |       |
| Drive wheels (front / rear)                       | 2/2                                       |       |
| Steering wheels (front / rear)                    | 2/0                                       |       |
| Braking wheels (front / rear)                     | 2/2                                       |       |
| Engine/Battery                                    |   |       |
| Engine brand / model                              | Kubota - D1105-E4B                        |       |
| Engine norm                                       | Stage V                                   |       |
| I.C. Engine power rating / Power                  | 24.80 Hp / 18.50 kW                       |       |
| Miscellaneous                                     |   |       |
| Hydraulic Pressure                                | 400 bar                                   |       |
| Hydraulic tank capacity                           | 60 I                                      |       |
| Fuel tank   | 53 I                                      |       |
| Noise to environment (LwA)                        | < 100 dB                                  |       |
| Vibration on hands/arms                           | < 0.76 m/s <sup>2</sup>                   |       |
| Daily consumption **                              | 4.41                                      |       |

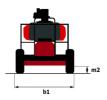

## MAN'GO 12 - Load chart

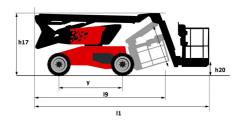

## Load Chart for MEWP Metric

MAN'GO 12 - Dimensional drawing

# **Equipment**

| Standard  |
|---|
| 3 Simultaneous movements  |
| Audible alarm and illuminated indicator lamp (leveling, overload, lowering) |
| Basket 1,500 mm   |
| CAN bus technology  |
| Dead man pedal  |
| Differential locking  |
| Easy Manager  |
| Emergency stop button in platform and on frame                              |
| Fuel gauge with low level indicator   |
| Hom in the platform   |
| Hour meter  |
| Leveling unlocking  |
| Management via engine speed bearing   |
| Manual emergency lowering   |
| Pendular arm  |
| Proportional controls   |
| Protective cover for control panel  |
| Quick access to components  |
| Simplified lift control system  |
| Stop & Go system  |

### Optional 110 or 230V plug with differential circuit breaker Audio warning on all motion Battery cut-off Biodegradable oil Catalytic cleaner Coded anti-start Cold weather protection oil High capacity starting battery Initial verification report before putting into service Key lock on turret cover Lockable fuel cap Non-marking tyres On-board generator (3,5 or 5 kW) SMS : Safe Man System Safety harness Screen protection on the lower box control Spark arrester Water heater Water predisposition Working light
